Mimaki®

UJF-706

WIDE FORMAT UV INKJET PRINTER

The Mimaki UJF-706 is a high-end UV inkjet printer for printing of brilliant images in 7 colors, including white. This inkjet printer is perfect for promotional products, POP displays, sporting goods, membrane switches, name plates, flexible packaging and much more.

The UJF-706 features a staggered print head that allows dark over white printing in a single pass of the print head, producing vibrant colors twice faster than printers by other manufacturers. This printer uses two types of specialized ink - hard UV ink with superior scratch and chemical resistance (ideal for instrumentation panels and name plates) and flexible UV ink that can stretch up to 200%, depending on substrate (great for membrane switches and protective films).

The inkjet comes with advanced RIP software that supports smooth graduations due to 16-bit rendering, variable data capabilities and fast updating of profiles via web functionality. It also features automatic optical image mark recognition on pre-printed items for accurate insertion of variable data such as serial numbers.

The UJF-706 inkjet printer has a larger bed than that of the older UJF models. It accepts items up to 5.9" high and can use a Roll Unit option for continuous printing on roll-to-roll substrates and flexible packaging. The UJF-706 is one of the most advanced wide format UV inkjet printers available on the market today.

STANDARD FEATURES

Resolution of 600 dpi x 600 dpi, 1200 dpi x 1200 dpi

Staggered print head for simultaneous white & color printing

Piezo-electric drop on-demand print head

UV curable ink, 8 colors: C, LC, M, LM, Y, K, White, Clear

440cc cartridge for each color

Equipped with UV lamp

Ozone free operation

Application versatility

Flat bed with vacuum table

STANDARD LIMITS

Ink Palette.....	Cyan, Magenta, Yellow, Black, Light Cyan, Light Magenta, White, Clear
Maximum Print area.....	27.6" x 23.6"
Maximum Media Size (L x W x H)	28" x 23.8" x 5.91"
Maximum Resolution.....	600dpi x 600dpi 1200dpi x 1200dpi
Feed Direction.....	27.55"
Connectivity.....	USB 2.0
Applicable Standard.....	VCC Class A UL, CE and CB

POWER REQUIREMENTS & DIMENSIONS

Voltage	single-phase 200 - 240V
Dimensions (L x W x H).....	98.4" x 68.9" x 61"
Approximate net weight (lbs.).....	1,112 lbs

LWH - Length, width, height
