PowerJet

COMPACT SOLVENT INKJET PRINTER

The PowerJet compact inkjet printer is a small yet powerful promotional product printer. It is ideal for any graphic printed on a light colored or white items up to 2 inches in height, and offers incredible benefits when printing 4 color process, gradients or multi-color jobs. There are no more hassles in pre-press or time consuming setup - just print the digital file to the machine and within minutes your products are decorated!

The PowerJet has an integrated part heating system, which increases adhesion quality while eliminating the need for pre-treating most materials. The inkjet printer also features an automatic platform height adjust that will raise or lower the part to provide optimal distribution of ink. The PowerJet comes with 6 bottles of colored solvent ink, which dries almost instantly. The inkjet is equipped with RIP software to enable easy image positioning, ink laydown control and color adjustment.

The PowerJet's small size allows for excellent portability. This affordable inkjet printer is great for running production, making sample prints on pens, bottle caps, dog tags, coasters, pins, poker chips, or starting a small business.
