

ICN Pad Printers

ICN B-100
1-Color Tabletop

Inkcups Now offers a line of heavy-duty semiautomatic pad printing machines, from 1-color tabletop to 6-color models. The machines can be equipped with various tooling and fixtures including custom-made ones. All printers come with the VersaCups - the patented universal design ink cups, ranging from 60 to 150mm in size to meet various production needs.

The ICN printers feature adjustable stroke, programmable delays and tool-less changeovers. All printers have ample compression capabilities to handle large printing pads and deliver crisp high quality images. The robust and user-friendly machines perfectly suit both start-up and experienced decorators. ICN equipment comes with attentive no-charge technical support in English and Spanish.
