

New Semi-automatic Pad Printer for Large Images – ICN-150 from Inkcups Now

Inkcups Now Corp. has introduced the rugged ICN-150 - a large parts pad printing machine. ICN-150 handles 150mm ink cups, which enables printed images up to 140mm in diameter. Its unique independent pad/ink cup stroke allows easy loading of large parts and efficient fine-tuning of print cycle for the highest quality images. The ICN-150 is offered as a one or two color printer and features an extended forward stroke, two-position pneumatic shuttle and XYR micro-adjust printing plate assemblies.
