# INKCUPS

# **EBD Cleaner**

| Revision: 2.00 US ( EN ) | Issuing date: 12/10/2014 |
|--------------------------|--------------------------|
|--------------------------|--------------------------|

#### SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### **1.1 Product identifier**

Trade name : EBD CLEANER

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Uses of the Substance / Mixture : Specific use(s): Intermediate for the synthesis of organic chemicals, Paint additive, Solvent

#### 1.3 Details of the supplier of the safety data sheet

| Company | Inkcups Corp. 310<br>Andover Street<br>Danvers, MA. 01923<br>USA<br>Telephone number: 978.646.8980 |
|---------|--|
|         | Telephone number: 978.646.8980   |

#### 1.4 Emergency telephone

FOR EMERGENCIES INVOLVING A SPILL, LEAK, FIRE, EXPOSURE OR ACCIDENT CONTACT: CHEMTREC 800-424-9300 within the United States and Canada, or 703-527-3887 for international collect calls.

#### **SECTION 2: Hazards identification**

Although OSHA has not adopted the environmental portion of the GHS regulations, this document may include information on environmental effects.

#### 2.1 Classification of the substance or mixture

#### HCS 2012 (29 CFR 1910.1200)

Acute toxicity, Category 4 Eye irritation, Category 2B H332: Harmful if inhaled. H320: Causes eye irritation.

#### 2.2 Label elements

#### HCS 2012 (29 CFR 1910.1200)

Pictogram

| SAFETY DATA SHEET  |   |
|--|---|
| EBD CLEANER  |   |
| Revision: 2.00 US ( EN )   | Issuing date: 12/10/2014  |
| Signal Word  | : Warning   |
| Hazard Statements:<br>H320<br>H332                                   | Causes eye irritation.<br>Harmful if inhaled.   |
| Precautionary Statements:  |   |
| Prevention<br>P261<br>P264<br>P271                                   | Avoid breathing dust/ fume/ gas/ mist/ vapors/ spray.<br>Wash skin thoroughly after handling.<br>Use only outdoors or in a well-ventilated area.  |
| Response<br>P304 + P340<br>P305 + P351 + P338<br>P312<br>P337 + P313 | IF INHALED: Remove victim to fresh air and keep at rest in a position<br>comfortable for breathing.<br>IF IN EYES: Rinse cautiously with water for several minutes. Remove<br>contact lenses, if present and easy to do. Continue rinsing.<br>Call a POISON CENTER or doctor/ physician if you feel unwell.<br>If eye irritation persists: Get medical advice/ attention. |

#### 2.3 Other hazards which do not result in classification

H402: Harmful to aquatic life.

No specific risk when handled in accordance with good occupational hygiene and safety practice.

# **SECTION 3: Composition/information on ingredients**

#### 3.1 Substance

Not applicable, this product is a mixture.

#### 3.2 Mixture

# Hazardous Ingredients and Impurities

| Chemical Name      | Identification number<br>CAS-No. | Concentration [%] |
|--------------------|----------------------------------|-------------------|
| Dimethyl Glutarate | 1119-40-0                        | 59 - 73           |
| Dimethyl Succinate | 106-65-0                         | 17 - 25           |
| Dimethyl Adipate   | 627-93-0                         | 10 - 14           |
| Methanol           | 67-56-1                          | 0.1 - 0.3         |

The specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret.

# **SECTION 4: First aid measures**

| 4.1 Description of first-aid measures   |   |
|---|---|
| General advice                          | : Show this material safety data sheet to the doctor in attendance.<br>First responder needs to protect himself.<br>Place affected apparel in a sealed bag for subsequent decontamination.  |
| If inhaled                              | : If inhaled, remove to fresh air.<br>Consult a physician if necessary.   |
| Skin contact                            | <ul> <li>Wash off immediately with plenty of water for at least 15 minutes.</li> <li>If a person feels unwell or symptoms of skin irritation appear, consult a physician.</li> <li>Remove contaminated clothing and shoes.</li> <li>Wash contaminated clothing before reuse.</li> </ul> |
| Eye contact                             | <ul> <li>Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes.</li> <li>If eye irritation persists, consult a physician.</li> </ul>  |
| Ingestion                               | : If victim is conscious:<br>Rinse mouth with water.<br>Keep at rest.   |
|   | Do not induce vomiting without medical advice.<br>Do not leave the victim unattended.<br>Vomiting may occur spontaneously<br>Risk of product entering the lungs on vomiting after ingestion.<br>Lay victim on side.<br>Seek medical advice.   |
| 4.2 Most important symptoms and effect  | s, both acute and delayed   |
| Risks                                   | : None known.   |
| 4.3 Indication of any immediate medical | attention and special treatment needed  |
| Notes to physician                      | : All treatments should be based on observed signs and symptoms of distress<br>in the patient. Consideration should be given to the possibility that<br>overexposure to materials other than this product may have occurred.  |
|   | Treat symptomatically.<br>There is no specific antidote available.  |
| SECTION 5: Firefighting measures        |   |
| Flash point                             | : 212 °F (100 °C)<br>closed cup   |
|   | Flammability class: Will burn   |

| SAFETY DATA SHEET                              |     |   |  |
|--|-----|---|--|
| EBD CLEANER                                    |     |   |  |
| Revision: 2.00 US ( EN )                       |     | Issuing date: 12/10/2014  |  |
| Autoignition temperature                       | :   | 680 °F (360 °C)   |  |
| Flammability / Explosive limit                 | :   | Lower flammability/explosion limit: 0.80 %(V)<br>Upper flammability/explosion limit: 8.10 %(V)  |  |
| 5.1 Extinguishing media                        |     |   |  |
| Suitable extinguishing media                   | :   | Water spray<br>Foam<br>Multipurpose powders<br>Carbon dioxide (CO2)   |  |
| Unsuitable extinguishing media                 | :   | High volume water jet<br>(burning material will float)  |  |
| 5.2 Special hazards arising from the substar   | nce | or mixture  |  |
| Specific hazards during fire fighting          | :   | Under fire conditions:<br>Will burn<br>On combustion or on thermal decomposition (pyrolysis), releases:<br>Carbon oxides  |  |
| 5.3 Advice for firefighters                    |     |   |  |
| Special protective equipment for fire-fighters | :   | Firefighters should wear NIOSH/MSHA approved self-contained breathing apparatus and full protective clothing.   |  |
| Specific fire fighting methods                 | :   | Cool containers/tanks with water spray.   |  |
| Further information                            | :   | Collect contaminated fire extinguishing water separately. This must not be<br>discharged into drains.<br>Standard procedure for chemical fires.<br>Fire residues and contaminated fire extinguishing water must be disposed of<br>in accordance with local regulations. |  |

#### **SECTION 6:** Accidental release measures

# 6.1 Personal precautions, protective equipment and emergency procedures

| Personal precautions, protective equipment<br>and emergency procedures | : | Avoid contact with the skin and the eyes.<br>Do not breathe vapor.<br>Do not allow uncontrolled discharge of product into the environment.<br>Wear suitable protective equipment.<br>For further information refer to section 8 "Exposure controls / personal<br>protection."<br>Stop the leak. Turn leaking containers leak-side up to prevent the escape of<br>liquid. |
|--|---|--|
|--|---|--|

| SAFETY DATA SHEET                      |  |  |                            |  |
|--|--|--|----------------------------|--|
| EBD CLEANER                            |  |  |                            |  |
| Revision: 2.00 US ( EN )               |  | Issuing date: 12/10/2014   |                            |  |
| 6.2 Environmental precautions          |  |  |                            |  |
| Environmental precautions              | Take all nece<br>drains and w<br>Spills may be                                 | : Do not flush into surface water or sanitary sewer system.<br>Take all necessary measures to avoid accidental discharge of products into<br>drains and waterways due to the rupture of containers or transfer systems.<br>Spills may be reportable to the National Response Center (800-424-8802) and<br>to state and/or local agencies |                            |  |
| 6.3 Methods and materials for containn | nent and cleaning up   |  |                            |  |
| Recovery                               | sand, earth,<br>disposal acc<br>Sweep up ar<br>Keep in suita<br>: Keep in prop | Contain spillage, soak up with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and transfer to a container for disposal according to local / national regulations (see section 13). Sweep up and shovel.<br>Keep in suitable, closed containers for disposal.                                    |                            |  |
|  |  | Never return spills in original containers for re-use.   |                            |  |
| Decontamination / cleaning             | Recover the<br>Decontamina   | Wash off with plenty of water.<br>Recover the cleaning water for subsequent disposal.<br>Decontaminate tools, equipment and personal protective equipment in a<br>segregated area.   |                            |  |
| Disposal                               | : Dispose of ir  | Dispose of in accordance with local regulations.   |                            |  |
| 6.4 Reference to other sections        |  |  |                            |  |
| Reference to other sections            | 8. EXPOSUR   | G AND STORAGE<br>RE CONTROLS/PERSONAL<br>AL CONSIDERATIONS   | PROTECTION                 |  |
| SECTION 7: Handling and storage        |  |  |                            |  |
| 7.1 Precautions for safe handling      |  |  |                            |  |
| Technical measures                     | : Does not rec   | Does not require any specific or particular measures.  |                            |  |
| Advice on safe handling and usage      | : Handle in ac   | Handle in accordance with good industrial hygiene and safety practice.   |                            |  |
|  |  | he vapors or spray mist.<br>t with skin and eyes.  |                            |  |
|  | Avoid splash   | es.  |                            |  |
| Hygiene measures                       | the following<br>handling this   | general measures should be materials:  | taken when working with or |  |

| SAFETY DATA SHEET  |  |  |  |  |

|  | applying cosmetics, or using the toilet.<br>3) Wash exposed skin promptly to remove accidental splashes or contact with material.  |  |  |  |
|  | Use clean, well maintained personal protection equipment.  |  |  |  |
| 7.2 Conditions for safe storage, including any incompatibilities |  |  |  |  |
| Technical Measures for storage                                   | : Take all necessary measures to avoid accidental discharge of products into drains and waterways due to the rupture of containers or transfer systems.  |  |  |  |
| Storage conditions   |  |  |  |  |
| Recommended  | : Keep container tightly closed in a dry and well-ventilated place.  |  |  |  |
| To be avoided  | <ul> <li>Keep away from incompatible materials to be indicated by the manufacturer<br/>Keep away from open flames, hot surfaces and sources of ignition.</li> <li>Keep away from direct sunlight.</li> </ul> |  |  |  |
| Incompatible products  | : Strong acids<br>Strong bases<br>Strong oxidizing agents<br>Strong reducing agents.   |  |  |  |
| Storage stability  |  |  |  |  |
| Storage temperature  | : no data available  |  |  |  |
| 7.3 Specific end use(s)  |  |  |  |  |
| no data available  |  |  |  |  |

no data available

#### **SECTION 8: Exposure controls/personal protection**

Introductory Remarks: These recommendations provide general guidance for handling this product. Because specific work environments and material handling practices vary, safety procedures should be developed for each intended application. Assistance with selection, use and maintenance of worker protection equipment is generally available from equipment manufacturers.

#### 8.1 Control parameters

Contains no substances with occupational exposure limit values.

#### NIOSH IDLH (Immediately Dangerous to Life or Health Concentrations)

| Ingredients | CAS-No. | Concentration |
|-------------|---------|---------------|
| Methanol    | 67-56-1 | 6000 ppm      |

| SAFETY DATA SHEET        |                          |  |
|--------------------------|--------------------------|--|
| EBD CLEANER              |                          |  |
| Revision: 2.00 US ( EN ) | Issuing date: 12/10/2014 |  |

| 8.2 Exposure controls         |   |
|-------------------------------|---|
| Control measures              |   |
| Engineering measures :        | Where engineering controls are indicated by use conditions or a potential for excessive exposure exists, the following traditional exposure control techniques may be used to effectively minimize employee exposures :   |
|                               | Provide adequate ventilation.<br>Extract at emission point.   |
| Personal protective equipment |   |
| Respiratory protection :      | When respirators are required, select NIOSH/MSHA approved equipment based on actual or potential airborne concentrations and in accordance with the appropriate regulatory standards and/or industrial recommendations.   |
|                               | Use a respirator with an approved filter if a risk assessment indicates this is necessary.  |
| Hand protection :             | Where there is a risk of contact with hands, use appropriate gloves   |
|                               | Please observe the instructions regarding permeability and breakthrough time<br>which are provided by the supplier of the gloves. Also take into consideration<br>the specific local conditions under which the product is used, such as the<br>danger of cuts, abrasion, and the contact time.<br>Gloves must be inspected prior to use.<br>Gloves should be discarded and replaced if there is any indication of<br>degradation or chemical breakthrough. |
| Eye protection :              | Eye and face protection requirements will vary dependent upon work<br>environment conditions and material handling practices. Appropriate ANSI<br>Z87 approved equipment should be selected for the particular use intended<br>for this material.   |
|                               | Eye contact should be prevented through the use of:   |
|                               | Safety glasses with side-shields  |
| Skin and body protection :    | Protective suit   |
|                               | impervious clothing<br>Footwear protecting against chemicals  |
|                               | Choose body protection according to the amount and concentration of the dangerous substance at the work place.  |
| Hygiene measures :            | <ul> <li>Personal hygiene is an important work practice exposure control measure and the following general measures should be taken when working with or handling this materials:</li> <li>1) Do not store, use, and/or consume foods, beverages, tobacco products, or cosmetics in areas where this material is stored.</li> <li>2) Wash hands and face carefully before eating, drinking, using tobacco,</li> </ul>                                       |

| SAFETY DATA SHEET        |   |
|--------------------------|---|
| EBD CLEANER              |   |
| Revision: 2.00 US ( EN ) | Issuing date: 12/10/2014  |
|                          | applying cosmetics, or using the toilet.<br>3) Wash exposed skin promptly to remove accidental splashes or contact with material.   |
|                          | Use clean, well maintained personal protection equipment.   |
| Protective measures      | <ul> <li>Ensure that eyewash stations and safety showers are close to the workstation location.</li> <li>The protective equipment must be selected in accordance with current local standards and in cooperation with the supplier of the protective equipment. Emergency equipment immediately accessible, with instructions for use.</li> <li>Selection of appropriate personal protective equipment should be based on an evaluation of the performance characteristics of the protective equipment relative to the task(s) to be performed, conditions present, duration of use,</li> </ul> |

#### **SECTION 9: Physical and chemical properties**

Physical and Chemical properties here represent typical properties of this product. Contact the business area using the Product information phone number in Section 1 for its exact specifications.

#### 9.1 Information on basic physical and chemical properties

| Appearance                          | : | Physical state: liquid<br>Color: colorless   |
|-------------------------------------|---|--|
| Odor                                | : | sweet  |
| Odor Threshold                      | : | no data available  |
| рН                                  | : | 5.0 - 7.0 ( 5 % (m/v)) Aqueous solution  |
| Freezing point                      | : | -40 °F (-40 °C) (727.56 - 757.56 mmHg (970 - 1,010 hPa))                                       |
| Boiling point/boiling range         | : | 383 - 421 °F (195 - 216 °C) (760 mmHg (1,013.25 hPa))  |
| Flash point                         | : | 212 °F (100 °C) closed cup   |
|                                     |   | Flammability class: Will burn  |
| Evaporation rate (Butylacetate = 1) | : | no data available  |

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information, and belief at the date of its publication. Such information is only given as a guidance to help the user handle, use, process, store, transport, dispose, and release the product in satisfactory safety conditions and is not to be considered as a warranty or quality specification. It should be used in conjunction with technical sheets but do not replace them. Thus, the information only relates to the designated specific product and may not be applicable if such product is used in combination with other materials or in another manufacturing process, unless otherwise specifically indicated. It does not release the user from ensuring he is in conformity with all regulations linked to its activity.
