INKCUPS

2200-LI

The ICN-2200-LI is a one-color sealed cup pad printer with the ability to print long images on long items. Print up to 3.14 x 12.99 inches (80 x 330mm) on items such as water bottles, hockey or lacrosse sticks, rulers or appliance panels. This industrial machine utilizes a two-color machine with a long pad affixed to it. The 90mm Versacup slides horizontally across the plate. The long pad then picks up the image and places it onto the part.
