INKCUPS

2200-LS

The ICN-2200-LS is a 2-color automatic pad printer equipped with an electro-pneumatic linear pad printing conveyor (also known as an over-under conveyor). The conveyor can be interfaced with automatic loading and unloading systems. This automatic printing machine is excellent for printing high volumes of industrial, medical and marketing products. The linear conveyor features shot pin print station registration (+/- .001") and a micro-adjust system for moving the conveyor in and out for easy positioning of the graphic on your part.

The ICN 2200-LS automatic pad printer's membrane-touch control allows for the simple programming of all setup features. This automatic pad printer has ample compression capability and the ability to accommodate large, hard print pads.

FEATURES

TWO COLOR PAD PRINTER

AVERAGE SPEED:
750-1500 IPH

MAXIMUM ARTWORK SIZE:
3.14" (80MM)

PLATE SIZE: 100MM X 250MM
