TAGLESS PRINTING
Patent Pending

INKCUPS

The Brite Tagless Printer (patent pending) by Inkcups revolutionizes the Tagless industry with the most opaque print yet. Developed in-house by Inkcups Engineers, this process easily achieves brighter whites, pinks and yellows on dark fabrics. The combination of specialized Brite ink, proprietary printing pads and specialized hardware give amazing unparallel prints on a variety of fabrics.

The complete Tagless solution from Inkcups offers a great cost savings while providing in-house production flexibility, soft hand and high-quality imaging. All Inkcups printers are supported by our strong Global Support Network of printing experts.
