INK CUPS

ICN-150

The ICN-150 pad printer is a two-color sealed cup pad printer ideal for large parts. This machine handles ink cups up to 150mm, which enables it to print images up to 140mm in diameter- significantly larger than the industry standard. The unique pad/ink cup stroke allows for easy loading of large parts and fine-tuning for the highest quality images. Obtain crisp, accurate graphics with its excellent pad compression capability. This rugged machine comes with a heavy-duty base cabinet assembly, height adjust assembly and XYR tooling table perfect for handling large parts.

The ICN-150 is offered as a one- or two-color pad printer allowing users to customize jobs based on their own needs. This machine also offers an extended forward stroke, two-position pneumatic shuttle and XYR micro-adjust printing plate assemblies.
