### 4. First Aid Measures

**Inhalation :** move to fresh air. If breathing is difficult, give oxygen. Call a physician.

**Ingestion :** Induce vomiting immediately as directed by medical personnel.

**Skin Contact :** Immediately flush skin with plenty of soap and water for at least 15 minutes. removing contaminated clothing and shoes.

**Eye Contact :** Immediately flush eyes thoroughly with water for at least 15 minutes, Remove contact lenses after initial 1-2minutes and continue flushing for several additional minutes. If effects occur, consult physician, preferably an ophthalmologist.

### 5. Fire-Fighting Measures

**Extinguishing Media :**

Water fog or fine spray. Carbon dioxide. Dry chemical fire extinguishers.

Foam. Alcohol resistant foams are preferred. General purpose synthetic foams or protein foams may function, but will be less effective.

**Special procedures :** Do not use directed water stream.

**Unusual Fire and Explosion Hazards :** None Known.

**Hazardous Combustion Products :**

During a fire, smoke may contain the original material in addition to combustion products of varying composition which may be toxic and/ or irritating. Combustion

# INKCUPS

products may include and are not limited to: carbon oxides.

## **Protection of Firefighters :**

Wear positive-pressure self-contained breathing apparatus and protective fire fighting clothing (includes fire fighting helmet, coat, trousers, boots and gloves.)

If protective equipment is not available or not used, fight fire from a protected location or a safe distance.

## **Specific Fire or Explosion Hazards :**

Fine dust of this product can form explosive mixtures with air and poses a definite fire and explosion hazard at all times; keep away from ignition sources.

Vapors are heavier than air and may travel a long distance and accumulate in low lying areas. Ignition and/or flashback may occur.

Spills of these organic liquids on hot fibrous insulations may lead to lowering of the autoignition temperatures, possibly resulting in spontaneous combustion.

## **6. Accidental Release Measures**

### **Personal Precautions :**

Eliminate all sources of ignition in vicinity of spill or released vapor to avoid fire or explosion. Wear appropriate personal protective equipment as specified in Section 8.

Isolate hazard area. Keep unnecessary and unprotected personnel from entering.

### **Environmental Precautions :**

Vapor explosion hazard, keep out of sewers. Contain liquid to prevent contamination of soil, surface water or ground water.

## **7. Handling and Storage**

**Handling :** Containers, even those that have been emptied, can contain vapors.  
No smoking, open flames or sources of ignition in handling and storage area.

**Storage :** Storage and use areas should be No Smoking areas.  
Use of non-sparking or explosion proof equipment may be necessary, depending upon type of operation. Minimize sources of ignition, such as static buildup, heat, spark or flame.  
Keep container closed.  
Keep at temperatures between 10 °C and 35 °C. Keep out of the reach of children.  
Keep away from direct sunlight.

## **8. Exposure Controls/Personal Protection**

### **Exposure Guidelines :**

A "skin" notation following the exposure guideline refers to the potential for dermal absorption of the material including mucous membranes and the eyes either by contact with vapors or by direct skin contact.

### **Engineering Controls :**

Provide general and/or local exhaust ventilation to control airborne levels below the exposure guidelines.

### **Personal Protective Equipment :**

**Respiratory Protection :** For Most conditions no respiratory protection should be needed; however, if discomfort is experienced, use an approved air-purifying respirator.  
In misty atmospheres, use an approved particulate respirator.  
For emergency conditions, use an approved positive-pressure self-contained

breathing apparatus.

**Protective Clothing :** Use protective clothing chemically resistant to this material. Selection of specific items such as face shield, gloves, boots, apron, or full body-suit will depend on operation.  
Remove contaminated clothing immediately, wash skin area with soap and water, and launder clothing before reuse or dispose of properly.

**Hand/Skin Protection :** Wear gloves made butyl rubber, Neoprene..

**Eye/Face Protection :** Use safety glasses. If exposure causes eye discomfort, use a full-face respirator.
