

X5

INKCUPS

The X5 UV printer is a high-performance flatbed that can print a full 43 x 24 inches (1,100 x 610 mm) area in approximately two minutes (single or bi-directional). Utilizing the latest in print head technology, the high-throughput X5 prints CMYK plus two highly opaque UV LED-curable white inks, with an optional varnish for additional visual impact, up to a maximum resolution of 1200 x 1200 dpi.

The X5 is designed for heavy-duty, multi-color industrial printing and features a rugged design that can handle two to three production shifts. Leveraging a large vacuum table and up to four Ricoh Gen 5-print heads, the X5 is able to print flats and hard goods up to 6 inches tall.

Ideal for full-color on-demand printing, the X5 lowers production costs, provides faster response to customers, and can easily customize short-run quantities.

FEATURES

FLAT OR SLIGHTLY CURVED ITEMS

BED SIZE: 43" X 24"

**INK CONFIGURATION:
CMYKWW OR CMYKWWVV**

MAXIMUM PART HEIGHT: 6"

**SINGLE- OR BI-DIRECTIONAL
PRINTING**

COMMON APPLICATIONS:

- Pens
- Injection molded products
- Canvas
- Notebooks
- Promotional items

POWER REQUIREMENTS & DIMENSIONS

Voltage: 220 VAC, Single Phase, 15 Amp

Uncrated dimensions (L x W x H): 100" x 52" x 55"

Crated dimensions (L x W x H): 110" x 65" x 69"

Approximate weight net/crated: 2094/2194 lbs.
